

3 Port Roof Cap

Quality Product:-

Triple MC4 Solar Connector Port Cap is exclusively designed for outside use. Besides being waterproof, it has a high degree of protection rating, UV resistant and high-grade insulation material as it uses Copper as the contact material. Altogether, this MC4 connector port provides solar system with secured connections.

Specifications:-

- All of our solar port roof caps include MC4 connector wiring
- Solar panel connectors pre-assembled
- Heavy duty UV resistant, thicker than all equivalent available
- Thick silicone o-rings seal better and last longer
- An all-weather mounting Silicone Rubber Gasket and stainless steel screws
- Gasket channel allows better adhesion and a dedicated place for adhesive for a perfect seal
- Thick flange includes (4) pilot hole indentions for screws
- Pairs Ip67 Mc4 Solar Panel Male+Female Connectors Set (2.5/4/6 sqmm)
- Max ratings (per solar panel connector): 1000V DC ; 30A DC
- Max recommended temperature range: -40°C / -40°F to 55°C / 131°F
- Contact Material: Copper, Tin Plated
- High-grade insulation
- High protection rating
- Secured & Weather proof connections
- High Quality | 25-Year Life |

Our Team:-

We have a team of qualified experts and engineers making sure that it produce efficient and effective weatherproof port cap product. We pride ourselves in caring for each individual customer needs with detailed attention. Our end goal is to give a highly efficient product with exceptional customer service.

Application Possibilities:-

By this, Solar panel weatherproof cable entry is perfect for speeding up project.
Best for routing the cables while mounting solar panels on vehicles, boats, roofs, buildings, sheds, etc.
